## WORK EXPERIENCE

TSQUAREDC | NODE DEVELOPER | Dec 2022 - present

- Developed and maintained **REST API's** using **Node.js** in **Typescript**.
- Restructured the Salesforce API architecture by implementing a robust Node.js layer with **Jsforce**; the upgrade reduced average response time by 25% and increased user satisfaction across sales teams.
- Worked in Core Services and **Microservices** like **Communication** and **Payment**.
- Worked in cine industry based product using **Hybrid database** with **MongoDB** and **Postgres**-using **Sequelize ORM**.
- Improved the Code quality with proper **Custom Logger -Winston** and preserved the documentation using **Swagger**.
- Written test cases using **Jest**.
- SSO integration for **google, instagram** and **spotify**. Scrapping filedata's of instagram
- **Azure storage** and **Google Cloud Storge** for file uploads.

CORNERSTOHN SOLUTIONS | NODE DEVELOPER | June 2022 - Dec 2022

- Worked as **Backend** Developer in a Surgery Management Application called **LOVE WITHOUT REASON**
- Fully well upheld code structure with **MongoDB** Database
- Authentication and Authorization were done by using **JWT**
- Api's are well sustained with required data by using the MongoDB **aggregations**.
- Complete code has been deployed in **AWS** ,using **EC2** and **Ubuntu** server with help of **putty** and **Filezilla**.

## INVOLVEMENTS

- Developed a portfolio Web page for myself and hosted it in **Netlify** the link is mentioned above.
- Worked in **Statemanager** to configure the settings for different organization.
- Capturing the payment gateway details form **Razorpay, stripe, ccavenu** in salesforce objects.
- Been in a part of development for the **FENZO** application .An inventor monitoring **realtime** application . Where developed part of screens using **React**.
- Worked in GCP **Virtual Machine** for manual deployment and to check the logs
